

Acne

I don't know what I am more amazed over, Earthborn Products super speeding shipping or Colloidal Silver, itself! I ordered the product 3 days ago and it just arrived!

I have been using Colloidal Silver for years now and cannot say enough about this product! I have used it for tooth aches, allergies and sinus infections, eye infections, acne (my face looks great now!) cuts, ear aches and the list goes on!

When I had my one dog neutered, he developed an infection in that area. The Doctor prescribed antibiotics and some cream. Use that for two weeks and it did nothing. Then, it dawned on me to try the Colloidal Silver. The infection cleared up just using the Colloidal Silver for 3 days!! It was totally gone! My other dog used to suffer from constant ear infections. I now give him a couple of drops of Colloidal silver in each ear every day. He has been infection free for almost a year and a half now!

I recommended it to a friend of mine who has MS. She was confined to a wheel chair. She has been taking it for a few months now and is able to not totally walk on her own but, get out of the wheelchair and use a walker. She cannot stop thanking me for letting her know about Colloidal Silver!!!

I swear, it is Nature's cure ALL!!!

Sheryl J - New Jersey

I have been using colloidal silver for a good two years now . I spritz it on my face after I wash it in the morning, then I put on moisturizer and find I have no breakouts. I have also gargled with it for sore throats and they are gone in a day.

I add it to my female dog's water because she suffers from occasional urinary tract infections, usually when her allergies really kick up. Proves to work on that. Good stuff. Beats going to the doctor and the vet all the time.

Claudia H., Hubertus, WI

After one week of applying colloidal silver to my mild facial acne everything cleared up completely !

Yvonne J., Kimball, MI

Algae

I am writing to let you know how happy I am with the results of my colloidal silver. Here is another use that you probably haven't heard of before. We moved to a new home that has a fountain in the garden. It had an algae problem, but we didn't want to use chlorine to clean it because we didn't want to harm the fish in it. We added colloidal silver to the water and after a short while it was completely algae free and crystal clear! Even the algae that had grown all over the rocks on the bottom tier was gone. The fish are doing great. It has been months now, and the water remains crystal clear. Thank you Earthborn Products!

Another use I found for it was to revive my African violets that had developed fungus in their roots. I just soaked them with colloidal silver and they made a miraculous recovering and are thriving now.

Your product is fantastic. I would recommend it to everyone!

Stephanie G - Huntington Beach, CA

Allergies - Lung Infections & Sinus Headaches

Just wanted to drop you a quick note to let you know about the immense improvement in my health over the past six months due to Colloidal Silver!

Over the past two years my physician kept me on ALBUTERAL and ASTHMACORT (the latter for good measure) for shortness of breath. Consequently my blood pressure soared and arrhythmia set in as another by-product and my good doctor added ALPRAZOLAM to my daily regimen. Severe cluster and sinus headaches, causing vertigo and affecting my vision and stomach as well, were quickly attributed to allergies, weather changes and Santa Ana winds (smog/poor air quality ironically was never mentioned!). So, CLARITIN and FLONASE were added to my drug diet. These actually provided some comfort and relief, more so than ALBUTERAL and ASTHMACORT, but the doctor insisted that I should take all four daily. Then, four months ago he diagnosed sinus and lung infections (three in a row) and ZYTHROMAX was hurriedly called in to the pharmacist (also three times in a row @ \$ 66.00 for six pills each time!).

By now, my medicine cabinet appears to be better stocked than a small town pharmacy, including the good old standby "organic chicken broth". The chicken broth is for nourishment because I am too busy with all the different medications to be taken on an empty stomach, with food, no milk, one hour before

a meal etc. to eat a decent meal. Well, I followed the doctors orders to the best of my ability and experienced some improvement, but still felt not quite right and up to par.

That's when my Guardian Angel sent you. You stepped in and introduced me to Colloidal Silver. I followed your instructions and miraculously my health improved to the point where I no longer experience cluster headaches, sinus problems, dizziness, lung infections, heart palpitations etc.(of course I ignored all the goodies in my medicine cabinet) and somehow the flu passed me by this year. WHAT A BLESSING!! And to think I waited until my "golden years" for Colloidal Silver!

I am now taking Colloidal Silver on a daily basis, and I strongly and passionately recommend for everybody to incorporate this natural antibiotic into their daily routine for general well being and good health. It is wonderful to feel well again!

Thank you, thank you, thank you, my sweet friend, and keep on spreading the word!

Gratefully Yours,

Love,
Inga - Costa Mesa, CA

Bronchopneumonia

This past year I had bronchopneumonia and over a six-week period, I had taken two antibiotics, and finally sulfa. I was getting no better when I decided to order your Colloidal Silver. After beginning the colloidal silver I began to feel a definite improvement in my condition within hours.

I continued with the colloidal silver, taking approximately one ounce every two or so hours while awake, and by the next evening my temperature had returned to normal. From that point, I continued to get well within the next several days.

I sincerely thank you for providing such a high quality of colloidal silver. It is absolutely superior to any other colloidal silver I have ever found.

May God continue to bless you for the work you do for others.

Very sincerely,

C. T. Smith, M.D.
Medical Director

International Clinic of Biological Regeneration, Ltd.

Colds and Flu

I am in a line of work that puts me in contact with a lot of people. I am constantly being exposed to people with colds and flu. It resulted in me being ill two to four times a year. I tried all the standard remedies (vitamin C, Echinacea, gold seal and a host of others too long to list) but nothing worked.

A friend recommended I try Colloidal Silver. I didn't think it would work but I tried it anyway. Much to my surprise during the next twelve months I didn't catch a cold or flu. I was not convinced so I stopped taking it. I got sick again. Now I take one ounce a day every day. I have not had a cold or flu in three years. The stuff really works. I feel that if it's protecting me from colds and flu it must be helping me in other ways also.

Jerry, Costa Mesa, CA

I have use your colloidal silver this past winter. My family and myself have aborted several colds by it's use. It is a great product. and I would recommend it to anyone. In fact I have, and he is well pleased with it.

M. B., Richmond Hill, NY

I heard about your product from a friend who uses it regularly to prevent his sinus infections. As winter was approaching, I decided to try it for myself, since I am prone to sore throats and colds.

So far, I have actually been able to stop two sore throats from developing into chest colds, which they always used to do. When I feel a sore throat starting, I just gargle with the silver water and sip it throughout the day, and before the day is over I am fine! WOW! This is incredible! I will never be without it again.

Thank you for a fine product. Next time I am ordering a larger size bottle. This is a lot less expensive than doctor visits and antibiotics.

J.H., Laguna Niguel, CA

My family, 7 children, my wife and I have used colloidal silver for sore throats, nasal spray for sinus infections, fungal infections, and for burns. Wonderful product.

C.L., Shamokin, PA

My son, who is 20 years old, takes colloidal silver when he is under the weather with a cold, etc. He seems to always improve quickly. Neither my son nor I have had any side effects from taking colloidal silver and would recommend it to others for a variety of ailments.

Barbara B., Damascus, MD

We have been using colloidal silver for about eight years. Anytime we feel like a cold or flu might be starting, we gargle with silver first thing in the morning. Then we continue throughout the day. It is very important to start using colloidal silver on an empty stomach in the morning. We do not mix with any other liquid. We keep some in a small spray bottle for the throat and skin abrasions. Many of our family and friends have used colloidal silver after our recommendation. When traveling, we make sure to have some silver with us. If you think you might have food poisoning, take some silver immediately. The sooner you start using the silver the better the results will be.

After our last supplier closed their business, we were desperate to find a new source with a quality product. Earthborn Products' colloidal silver seems to be the same quality product that we were purchasing before.

B. and B. H, Fresno, CA

Cough

For weeks, I had this cough that would not quit! Finally, after trying almost everything, my sister suggested that I use your colloidal silver. I was a bit skeptical at first, but I ordered it anyways and took it

as directed. After a few days, I could already notice a difference in my cough. And after a week or so, it was completely gone!

I now recommend your product not only for colds, but also for several other health conditions. Thank you for making such a wonderful product!

Maria I., Mira Loma, CA

Crohn's Disease

I have had Crohns disease since 1968, and have been miserable most of my adult life. In 1984 I had about 3 feet of my large and small intestines removed -- I had to adjust my eating habits tremendously. In 1986 Crohns reappeared-- I was put back on predisone and sulphur and continued that way - off and on until about October of 2003, when I took myself off of antibiotics and predisone, and of course the sulphur.

I started taking colloidal silver and after a withdrawal of about 2 - 3 weeks started noticing my horrible rashes and itching I had been experiencing going away. My digestion improved -- as well as my bowel movements. I have been on colloidal silver off and on since that time. I feel much better -- almost lead a normal life.

I reviewed my medical records and from a CT scan taken 8/4/2004 this is an excerpt --

". . . there is a short segment of small bowel in the Rt. lower quadrant with some wall thickening at the junction of the sm. bowel & colon which could represent crohns disease -- But at this time NO significant inflammatory type changes are seen."

Karen E., Kalispell, MT

Cuts - Burns - Infections

This is a great product. If any family member gets a sore throat, this stuff knocks it out, simply by taking a mouthful and gargling. Then take another and let it 'sit' against your throat. It really works.

Also, it is more effective than any topical anti-biotic ointment for cuts or burns, as it will prevent infection and, if an infection happens to occur, take a Q-Tip and rub this product on it. Infection gone within a day. Use it a few times on the occurrence.

If you have the onset of the flu or a cold? Drink like 8 oz. of it, and it will knock it out. I hate antibiotics, so this stuff is great for anything an antibiotic should do.

I highly recommend the product, as I have experienced it as well as experimented with it. Everyone is different, some may need more, some less.

You have nothing to lose!!! I have not suffered from any ailments since I have used this product. Not for very long anyway. It works!!!

Sincerely,

MK - Toms River, NJ

Epstein Barr Virus

I have been VERY ill and medical doctors have not been able to help. My entire system felt "poisoned", as if someone was injecting it right into my bloodstream. As I told it to various emergency room doctors (5 trips in 4 months - two ending in short in-patient hospital stays), that is the only way I knew how to describe what was going on inside my body. One friend told me about colloidal silver and her and her husband's successful use of it, and when I asked another friend if he knew anything about it, he emailed me your URL.

This is my second order. After taking the first 16 oz. bottle (I still have some, but I don't ever want to be without it now), I am feeling wonderful. I had an infection throughout my entire system by the Epstein Barr Virus - lab work was elevated in three different areas with no definite diagnosis of anything. Whatever this stuff is named, it was affecting my motor skills, kept me down and barely able to lift my head - you name it - it was happening to me.

I wobbled when I walked and almost fell, had no legible form of penmanship, my speech was slow and childlike as my daughter and mother describe it, and I was off-balance to the point of falling, I had blurred vision, painful ears, chest pain, shortness of breath, the palms of my hands remained beet red. This all began in September and worsened over time, and I went through a living %*\$# until I received your product. I went through the horrible ordeal of ER doctors thinking I was crazy, because the "normal" blood work they would do there would not indicate anything.

So I praise the Lord for colloidal silver, because before my use of it I literally was so very ill that I hoped to die. NOT ANYMORE!

Yesterday, I awoke at 5:30 am, and I worked from then until 10 pm NON-STOP, doing things that I've not been able to do for WEEKS and WEEKS. I don't have the morning stiffness even that I've suffered with. I am so grateful, and I believe everything I read about antibiotics and the pharmaceutical industry. I can't believe that the FDA only allows this "miracle" in a bottle to only be labeled a "Dietary Supplement". Let one of the FDA executives go through what I have been through, and I guarantee they would work to reverse that decision.

Thank you, and may God bless you.

Debbie, Charleston, WV

A friend told me about colloidal silver some time ago. I didn't give it much thought at the time. Then I was diagnosed as having Epstein Barr. I had symptoms for six weeks which is what the doctor told me to expect, and then they told me there was nothing they could do for me.

I was sick for about 6 weeks, then wait for about six weeks when I started having symptoms again which included sore throat, clogged ears, sinus headache and body aches. I was miserable. My friend gave me some colloidal silver to try. I didn't expect any kind of miracle but there was a miracle. I felt better immediately after taking the first dose! I know that sounds strange and I couldn't believe myself.

I've been taking colloidal silver ever since and won't go anywhere without it and have told numerous people about this product.

Melissa G., St. Petersburg, FL

Fibromyalgia

I have used colloidal silver and it has practically gotten rid of my fibromyalgia. It got rid of my toenail fungus, ear infections, sinus infections, and pain I used to get.

It has been a miracle for me as antibiotics would not get rid of my sinus and ear infections.

C. B. - Moline, IL.

Food Poisoning

A couple of years ago I discovered the wonders of Colloidal Silver when I contracted food poisoning. I had eaten a sandwich with tainted mayonnaise on it and became very ill. After throwing up, having chills, diarrhea and stomach cramps for 2 hours, I looked in my cabinet and found a bottle of Colloidal Silver. I thought this is supposed to kill bacteria, I will give it a try.

I took one sip and threw that up and then I took another sip, laid down and fell asleep. When I woke up an hour later, I felt like I had never been sick.

I use Colloidal Silver for sinus infections, sore throats, earaches. stomach distress and anything else that comes along and the symptoms are gone within minutes.

Thank you for introducing me to Colloidal Silver. I will never be without it.

Bev K - Aliso Viejo, CA

We have been using colloidal silver for about eight years. Anytime we feel like a cold or flu might be starting, we gargle with silver first thing in the morning. Then we continue throughout the day. It is very important to start using colloidal silver on an empty stomach in the morning. We do not mix with any other liquid. We keep some in a small spray bottle for the throat and skin abrasions.

Many of our family and friends have used colloidal silver after our recommendation. When traveling, we make sure to have some silver with us. If you think you might have food poisoning, take some silver immediately. The sooner you start using the silver the better the results will be.

After our last supplier closed their business, we were desperate to find a new source with a quality product. Earthborn Products' colloidal silver seems to be the same quality product that we were purchasing before.

General Comments

I have been using Earthborn colloidal silver now for several years. I wanted to take a moment and tell you how much it helps me maintain my health.

Currently I work as a manager for a health club. I have spent most of my life working in many health related fields, I am a CMT. I have worked in physical therapy and my family even once owned a health food store. In all my years I have seen thousands of remedies, therapies and food supplements. Many of which I've tried myself. With all of that in mind, I have found that the best way to maintain one's health is to prevent illness through simple, natural and easy to digest supplements. I personally only try to take vitamins, minerals and other food supplements in powder or liquid form. This is another reason why I enjoy your colloidal silver so much.

I have personally done research on silver and I know that it has been used in the past all over the world to prevent and treat illness. At the turn of the last century, silver was used to treat Syphilis before penicillin was discovered.

A few years back, I took a new job working at a gym. When I did so, I lost my health insurance through my old employer. Even though I plan to purchase private health insurance in the near future, I am still without coverage. Working at a health club with thousands of members can expose you to a lot of germs. I am very happy to say that since I started using Earthborn colloidal silver, I have not been sick in any way for several years. Taking your product, along with exercise and healthy eating, has given me great piece of mind.

BTW, I take an ounce 3 times a day. Morning, noon and night....Earthborn colloidal silver really does deliver. Thanks for everything!

Sincerely,

Mike - Bakersfield, CA

I am so excited about all of the great results I experienced when using Earthborn's Colloidal Silver.

After fighting a devastating virus without improvement for a year and a half, I took the advice of a doctor and bought colloidal silver. To my delight, it got rid of the virus and cleared up sinuses problems for my daughters.

There are many amazing way to use this quality product. I tell people about this product because I know what it can do with no side effects. After using it for two years I will never be without it!

I also sing in a church choir and in a barbershop chorus and discovered it helped a "croaky" voice as well. I have been diabetic (type I) for 48 years and found it helps to heal skin injuries as well. Healing is sometimes difficult for diabetics.

I also have my 75 year old boyfriend believing in your colloidal silver too.

Sincerely,

Jody K - Springville, TN

A friend told me about colloidal silver water and I just looked it up on the internet. Your company name appealed to me and your web site provided credible information. So I ordered 1 bottle and have been taking regularly for 3/4 weeks.

I feel that it has helped me to feel better and have more energy and seems to help me with a prostate problem that I have had for some time.

Robert A - Richland Hills, TX

Genital Herpes

In 1999 I was diagnosed with Genital Herpes. It was by far the most devastating news I had ever received! I felt as if my world had come crashing down.

I refused to go on Valtrex until it was too unbearable, and I believed it was my only option. I had to go on suppression therapy for ten years until I was given a second blow: "the medication" had damaged my liver! I knew then I had to get off it, and sure enough within days I was extremely ill, and to my worst nightmare I found that the drug had only masked the symptoms, but now it was in full force!!

Then a friend told me an incredible story about how he had treated himself with silver after been diagnosed with pneumonia, but when I look into it I was concern after watching a show on Oprah about a man who turned blue from taking silver! But after talking to you I realized I was going to be OK and I am :) I am actually jovial :)

I feel hesitant to disclose my illness because I know the stigma that comes with the disease which I myself believed "nice girls don't get it" it was the mentality of a naive seventeen year old girl.

But now I understand the facts. You have been one the best highlights and blessings to have come across in my life. Thanks to you I found myself again.

Joan C - NJ

Hepatitis C

I was told I had Hepatitis C in 1991. I used to bruise very easy. Of course, like others, I was afraid to search for things on the web for help.

I found Earthborn Colloidal Silver and to myself I said, give them a call, and so I did. Talking to a wonderful lady who explained it all to me, I said I'd give it a try. That was October of 2004. It's now May 2005, and since taking colloidal Silver I have had no more bruises. Thank God, I know he sent me to these wonderful people.

Please, if you have Hepatitis of any kind, give it a try. (Please).

G. F. - Jackson, GA

I went through a year of treatment for Hepatitis-C, chemo, and ribovarn pills, but it did not work. I found out about your colloidal silver and started using it 34 days ago.

My new blood test revealed my Hepatitis-C levels had dropped significantly. I also have had more energy than I have had for years. I am 42. I will let you know more in next 30 days. God bless every one for this.

T.D. - Noblesville, IN

Hodgkin's Lymphoma

I just wanted to write to you and let you know that colloidal silver is one product that this household will never be without. And it is also a product that I highly recommend to everyone!

I use it when I can feel a UTI coming on and within hours, it is gone. I used it during the terrible 2003 flu season and within hours of both of my daughters having a 103 temp, it was history and they were up and going once again.

I used it in a protocol to help cure my 21 year old daughter of her Hodgkin's lymphoma stage 3b. We preferred to go the alternative route instead of the deadly poison chemotherapy that big pharma offers. My daughter has just been pronounced cancer free.

I use it in my cat's water if I notice her coming down with something. Thank you for such a wonderful, safe product.

L. M. - Coopersville, MI

Immune System

Aloha from Hawaii!

My experiences with colloidal silver has been wonderful! In fact, since I discovered how this item was "put on the shelf" and replaced by penicillin and/or other antibiotics, I was convinced that I should use it. I have not been sorry. In fact, I have not seen my doctor for any antibiotics since then. That was over 8 years ago. By the way, I am allergic to penicillin.

Jane Mc - HI

I am all better and live without fear! I have used colloidal silver in a spray bottle for my sinus problems. I have had severe chronic sinus problems all my life, two surgeries and countless prescriptions for infection, until my entire immune system broke down. Any time I feel stuff or have any pain I start using the colloidal silver full strength in a nasal spray bottle and sometimes just for general principals just to be sure my sinus are in good shape.

Thank you so much for saving me from endless hours of pain.

Barb C. - Millersville, MD

Infections - Ear - Nose - Throat - Fungal

My family, 7 children, my wife and I have used colloidal silver for sore throats, nasal spray for sinus infections, fungal infections, and for burns. Wonderful product.

C. L. - Shamokin, PA

I just wanted to take a moment to thank you for your 100 ppm colloidal silver product.

This winter, I picked up an infection in my head and chest. I went to the clinic after suffering for two weeks and asked for help. After the ten day course of antibiotics, I became even sicker. I tried chicken soup, orange juice, gallons of water every day for several more weeks, but I could not shake this infection and another antibiotic was out of the question.

We made a trip back home during the holidays and my brother-in-law noticed that I was sick. I told him the tale of how I had been struggling for six weeks to shake this infection, but I was having zero luck. He told me how he went through a similar experience for months until he discovered colloidal silver. He stated that it was tasteless and had no side effects, but within ten days he was feeling like new. I asked him where I could find this type of product and he told me on the internet.

I did a search and came across Earthborn's website. This product was shipped quickly to my door in Tennessee, and my brother-in-law was right. Within two weeks all signs of the infection were gone. I continued to take a single dose each morning for another two weeks to ensure I did not relapse, and now I take a dose for several days any time I feel another stomach, head, nose, throat, or flu symptoms coming on. I have not had another sick day since thanks to your product.

Thanks, Earthborn for this fine product, and rest assured that I am a customer of colloidal silver for life.

BAA - Columbia, TN

I have been using colloidal silver for two years. The results I have received are amazing. I was very prone to sinus infections and was also a slow healer. Since I have started using your product, I have not had any sinus infections, colds or flu. Your product has also corrected my slow healing problems.

I have also treated my dogs and cats with colloidal silver. I would highly recommend your product for everyone. I have shared your product with many of my friends and doctors. They have also used your products and have placed repeat orders with your company.

Janet B. - Raleigh, NC

Lyme Disease

About 20 years ago I was treated (via antibiotics) for Lyme Disease. Similar symptoms finally led me to wonder , and I discovered that bacteria can sometimes hide in the body for many years. One of my symptoms was the same as carpal tunnel syndrome. In researching the internet I discovered that CS was apparently having results for other difficult Lyme cases. I read quite a bit of material on CS, finally deciding that the form you sell (clear, atomic) made the most scientific sense. Immediately within a day I could feel action in my lymph glands, so I knew it was working.

Within a month, taking at first 1/2 oz 3 times a day, and holding it in my mouth several minutes (for best absorption), then going to twice a day, my symptoms vanished.

Curiously, one day in that first week, I experienced an annoying pricking sensation in the middle of one of my feet, almost as if I was recovering from having stepped on a nail. After feeling that for several hours, and puzzling over the cause, it finally hit me that that location was where I had stepped on a nail many years ago - and I am convinced that the silver was enabling my body to finally get rid of some bacteria that was hiding at the site of that old injury. CS is not a silver bullet, as some would have you believe, but it appears to be more effective than an antibiotic, with less side effects.

BG - Chardon, OH

Many Other Uses

My discovery of colloidal silver began with strep throat in September 2003. It affects me terribly. When I was a teenager I would miss school for 2 1/2 weeks, all that time taking my antibiotics. I would receive a shot even before the results were back from the lab because I knew it was strep throat. It weakened me so much that I could barely walk.

At the age of 19 I decided to get healthy. Stop eating junk food, no drinking soda, not antibiotics. All because I had read about how and when the antibiotics came to be. I began to take vitamins and supplements. I ate right and drank lots of water. I lasted 4 years without a strep throat infection, and a flu or cold would only last a day. I worked in a daycare and still never caught anything for more than a day. My body was stronger, my immune system was healthy.

Then came September of 2003. My fiancé had strep throat. He takes this illness very well, he can eat, work, jump around and workout. I look at him in awe. "Strep throat is my killer. My debilitator. I am weakened so much by that," I said. Well he was cured without antibiotics and went about his merry

way. About three weeks later I felt the tell tale signs. Pain in my throat, a circular soar on my tonsils. Uhh, I got strep throat. So I decide to fight this on my own for the first time. No antibiotics, they will just make me weaker.

I take every natural medicine I can read about. Homemade gargle, hydrogen peroxide gargle, belladonna, you name it I tried it. Nothing. Now I was getting a fever. I was vomiting, which I have done only a few times in my entire life! I was about to give up. Then, by the guidance of the higher power that drives me, I found out about colloidal silver.

I sent my fiancé to buy a bottle at a health food store while I waited for the Earthborn colloidal silver to arrive. It helped some, but was a very different substance than the one I received from your company. I began to take sips of your colloidal silver and I could immediately feel relief. "I can swallow!" I felt a relief and subsiding of the bacteria. I took a look at my throat, a lot of the strep was gone. This in about 4 hours. I never thought I would say this but I was happy to have gotten strep throat, it lead me to this wonderful supplement which has helped me with many other ailments. When someone asks me, what should I take for ___? I say Earthborn Products Colloidal Silver!

I have used colloidal silver on myself and others for the following ailments:

- *sinus problems caused by cleaning chemicals
- *pain and swelling from the growth of my wisdom teeth
- *sore throat
- *eczema (closes up the cracks and subsides the itching)
- *psoriasis
- *hair regrowth (small patch on my head where hair would not grow)
- *eye infections
- *ear infections
- *cuticle repair
- *nail fungus
- *yeast infection
- *mildew
- *I place a full dropper in my facial lotion
- *pet wounds
- *put some into my tea
- *sprayed poultry with it and many more...

I can testify to the claims you have made on your website and I am so glad to have stumbled upon this. I have spread the word to others, I have made many recommendations. I hope your business flourishes and keep on with your great work. The synthetic chemicals we put into our bodies will always do us harm. We have to utilize substances that can complement our biology. There is a cure for everything born within the earth. I highly recommend Colloidal Silver.

Sincerely,

Sue C - North Bergen, NJ

Mold

We ordered Earthborn Colloidal Silver for the first time in winter of '04-'05. We used it through cold and flu season, and I especially find it helpful rinsed through a neti pot for sinus pressure.

We also have been very pleased to use it for mold removal in our home. After cleaning our bathroom ceiling 2-3 times a year with chlorine bleach, we used colloidal silver and the mold has not returned. Now we are cleaning the mold off the spindles on our front porch railing before repainting. We used bleach there also 2-3 years ago and the mold was back before much time had passed. We are eager to see it work on this area as well as it did in the bathroom!

Thanks for a great product, and the informative brochure included in the packaging, with ideas for use!

Leslie L., Old Forge, PA

Our home has been flooded twice in the past 2-1/2 years. River water, mud, ag-runoff, chemicals, sewage, etc. have stood for up to 6 days the first time.

We have successfully treated mold, fungus, and odors with both colloidal silver and UV-light. The UV and ozone seem to kill the mold and the colloidal silver sprayed wood and cloth products including sections of dry wall prevents it from re-establishing.

Gritz P., IN

Molluscum Contagiosum (Severe Skin Rash)

My daughter had what appeared to me as a horrible rash on her legs and between her inner thighs nearing her vaginal area. When I took her to the doctors in hopes of getting a referral to a dermatologist, I was denied.

Her pediatrician told me that it was molluscum contagiosum, a common viral rash children get and that I should be glad where it is because it's more cosmetic than anything and could take up to two months to two years for it to go away.

I was familiar with this rash because my son had it and was treated with a prescribed ointment that left scars on his chest which he still has 8.5 years after receiving treatment.

I decided to use your product although initially skeptical. I simply wet a paper towel and applied to the rash, letting it sit overnight. Within a week the rash was gone and no scars. I love this product.

Desiree W., CA

Prevention

I learned about your product from my mother, who learned about it from her medical doctor who is a huge advocate of alternative medicine, and it has had a profound effect upon my health. I am so grateful for having been introduced to this.

I have been taking 1/2 oz. of your 100 ppm Monatomic Colloidal Silver nightly at bedtime for 7 months with remarkable results. I noticed the effects within days, and the results have continued unabated. Your product has become my health insurance policy.

In order to stay healthy, I used to take echinacea and goldenseal, astragalus, and Zicam Cold Remedy (holistic) frequently to ward off cold symptoms. Often I took all 3 at the same time. I had to do this so consistently that I needed to be aware of how much echinacea I was taking to avoid immune system problems. The limit is 3 weeks.

From the time I started taking your colloidal silver, which was during the peak of the colds and flu season (Dec.-Jan. 2004), I have not been ill once. I can count on 1 hand the number of times I "boosted" the colloidal silver w/1 or all of my old standbys. Prior to taking your colloidal silver, I generally always became ill at least once/year.

Even more, I have more energy, can do more, stay out late more, and recover faster than I've been able to in years. Essentially, no matter what I do now, I can recover well enough with one good night's sleep. I am 58 years of age and even with working long, hard hours, my activity level and recovery time are now very close to what they were in my early 40's, and I'm healthy!

Thank you Earthborn Products for your service and concern for all of us here on our planet.

Sincerely,

Judy K. - Morrisville, VT

p/s Also, as an aside, I add a dropper full of colloidal silver to my cat's water bowl because she getting "colds" as well. She seems noticeably more healthy, as well!

I have been using colloidal silver for about 2 years now. Since starting to use colloidal silver I have not had a cold or the flu in that time period. My family was skeptical until they were getting sick and I wasn't. I am winning them over.

I strongly recommend to all my friends for health maintenance use colloidal silver.

Brian O., Dana Point, CA

Pseudomonas with Bronchiectasis - Part I

My cousin told me of her success with Colloidal Silver for Pseudomonas Aeruginosa a bacteria infection. Last year I was diagnosed with this and had three pic lines put in and had over three months total of IV's for this infection as I am allergic to Cipro and Levaquin I could not take oral medicine and had to have the IV's. I did a search and fortunately found your website on Colloidal Silver.

Since October 31, 2007 I have been taking your 100 ppm Colloidal Silver one oz 3 x a day and I feel like myself again. My cough has just about totally disappeared and my energy has been restored and I am about back to my normal daily activities.

I also have Bronchiectasis which is a bacteria infection and the symptoms are very similar to the Pseudomonas. Since I have been on the Colloidal Silver my condition has improved considerably and it is so nice to be sleeping all night again without the coughing.

I read on your website about the Siberian Chaga Extract which I started at the same time as I felt it would be good for my immune system and over all health. I have been feeling great and I am certain your products are responsible as I take no medicines at all.

I want to thank you again for having my life back.

Sincerely,

Muriel N. - Fort Lauderdale, Fl.

Update - Part II

April 4, 2008

Attached are three lab reports regarding the Pseudomonas Aeruginosa which I had the following treatment for:

January 19, 2007

Pic line was put in and I received IV medicine "Merrem" at home two times a day for 18 days for the above infection in my lung.

April 24, 2007

Pic line was put in and I received IV medicine "Merrem" at home two times a day for 26 days for the above infection in my lung.

July 12, 2007

Pic line was put in and I received IV medicine "Merrem" at home two times a day for 33 days for the above infection in my lung.

The doctors told me the infection never goes away it can just be controlled. He said I could look forward to going through this four times a year. I was to have another pic line at the end of September but I held off and looked on the internet and found your site and read about the Colloidal Silver and that it could kill the bacteria Pseudomonas Aeruginosa.

I then ordered a gallon jug of Colloidal Silver from you and started taking it on October 31, 2007 and I am enclosing a copy of my last lab report dated March 18, 2008 which shows NO Pseudomonas Auruginosa. I continue taking 1/2 ounce in a.m. and p.m. as maintenance. Thank you so much for such a wonderful product.

Sincerely,

Muriel N. - Fort Lauderdale, Fl.

Respiratory Infections

I just wanted to take a moment to thank you for your 100 ppm colloidal silver product.

This winter, I picked up an infection in my head and chest. I went to the clinic after suffering for two weeks and asked for help. After the ten day course of antibiotics, I became even sicker. I tried chicken soup, orange juice, gallons of water every day for several more weeks, but I could not shake this infection and another antibiotic was out of the question.

We made a trip back home during the holidays and my brother-in-law noticed that I was sick. I told him the tale of how I had been struggling for six weeks to shake this infection, but I was having zero luck. He told me how he went through a similar experience for months until he discovered colloidal silver. He stated that it was tasteless and had no side effects, but within ten days he was feeling like new. I asked him where I could find this type of product and he told me on the internet.

I did a search and came across Earthborn's website. This product was shipped quickly to my door in Tennessee, and my brother-in-law was right. Within two weeks all signs of the infection were gone. I continued to take a single dose each morning for another two weeks to ensure I did not relapse, and now I take a dose for several days any time I feel another stomach, head, nose, throat, or flu symptoms coming on. I have not had another sick day since thanks to your product.

Thanks, Earthborn for this fine product, and rest assured that I am a customer of colloidal silver for life.

BAA, Columbia, TN

In May of 1991 my son Brian then just six years old became seriously ill with pneumonia. For the following three years or so, he suffered many ear, nose and throat infections. I was most concerned about all the antibiotics he was prescribed.

A friend told me about colloidal silver; the next time Brian exhibited the first minor cold like symptom, I began giving him colloidal silver. No infection developed and he recovered quickly without any other medication or any negative side effects.

I have used it myself and have given it to many other family members and recommended it to friends...IT WORKS...

Sincerely,

B. K., West End, NC

I first learned about colloidal silver as I was searching the internet for an alternative therapy for pneumonia. I had been bedridden for months after taking two courses of antibiotics.

I decided to try inhaling an aerosol of colloidal silver with oxygen. Within days of beginning this therapy my lungs were clear and my strength was returning.

I continue to use your product taken orally for sore throat and periodontal infection. It is also very effective applied topically for minor staph infection that is common where I live. I am totally convinced of the safety and efficacy of this product. I unconditionally recommend it to everyone.

Michael S., Kapolei, HI

Ringworm

I have been using colloidal silver for 2 weeks now and the difference is amazing - not only for me but for my pets as well. Came across it by searching for a natural cure for ringworm which my new kittens had - they gave it to me....and then my 2 indoor dogs as well. We are all doing much better!!

AMR - Port Orange, Fl.

PS. My Savannah Monitor Lizard seems to like it in his bathing dish too!

Sinus Infections (Mouth, Ear, Nose, Throat & Eyes)

Well top of the morning to you. I just wanted to drop you a line and say that, for the first time since I can remember, I can breathe out of both nostrils and wake up in the morning able to still breathe and not having to clear my throat. What a blessing!

After reading the web site I did the lying down with my head back routine. The first time it stung like crazy, but each time I did it, it hurt less and less. So I know it was killing those little beasties. I do it in the morning and at night before bed. I think I'm even sleeping sounder because of the open air passages.

I can't believe how many people have the same problem that I have and are looking for anything that will help. I will be sending you lots of customers from the Great Northwest.

Thank you, thank you.

Rich - Seattle, WA

I heard about your product from a friend who uses it regularly to prevent his sinus infections. As winter was approaching, I decided to try it for myself, since I am prone to sore throats and colds.

So far, I have actually been able to stop two sore throats from developing into chest colds, which they always used to do. When I feel a sore throat starting, I just gargle with the silver water and sip it throughout the day, and before the day is over I am fine! WOW! This is incredible! I will never be without it again.

Thank you for a fine product. Next time I am ordering a larger size bottle. This is a lot less expensive than doctor visits and antibiotics.

J.H., Laguna Niguel, CA

My family, 7 children, my wife and I have used colloidal silver for sore throats, nasal spray for sinus infections, fungal infections, and for burns. Wonderful product.

C.L., Shamokin, PA

This is a great product. If any family member gets a sore throat, this stuff knocks it out, simply by taking a mouthful and gargling. Then take another and let it 'sit' against your throat. It really works.

Also, it is more effective than any topical anti-biotic ointment for cuts or burns, as it will prevent infection and, if an infection happens to occur, take a Q-Tip and rub this product on it. Infection gone within a day. Use it a few times on the occurrence.

If you have the onset of the flu or a cold? Drink like 8 oz. of it, and it will knock it out. I hate antibiotics, so this stuff is great for anything an antibiotic should do.

I highly recommend the product, as I have experienced it as well as experimented with it. Everyone is different, some may need more, some less.

You have nothing to lose!!! I have not suffered from any ailments since I have used this product. Not for very long anyway. It works!!!

Sincerely,

MK - Toms River, NJ

I just want to say that i have been using colloidal silver for the past 4 years.

Prior to using this product I used to suffer from at least 1 sinus infection per year. Since i have been using colloidal silver, none.. I also use it as a mouth wash, gargle, nose and eye drops.

K.B. - Tucson, AZ

I had a sinus condition which had been unsuccessfully treated by antibiotics for a period of months. After ordering colloidal silver from you, in less than 1 week it cleared up.

I have continued to use it in a spray bottle all winter and have had no colds or sinus problems. Thank you. I shall continue to use and recommend to others.

J. McB., West Yarmouth, MA

Just wanted you to know that I have used colloidal silver for over 2 years and have found it especially beneficial for sinus infections. I take the silver orally and spray it up my nostrils several times daily when experiencing problems with my sinuses. It has helped me at times when prescribed antibiotics failed to provide relief. I have also put drops of silver in my ears and in my eyes to help ease sinus problems.

My son, who is 20 years old, takes colloidal silver when he is under the weather with a cold, etc. He seems to always improve quickly. Neither my son nor I have had any side effects from taking colloidal silver and would recommend it to others for a variety of ailments.

Barbara B., Damascus, MD

I want to tell you that Colloidal Silver has been a life saver for me. I had so many sinus infections that I finally had surgery to try to solve the problems. For those who have not had this problem, chronic sinus infections leave you drained of all energy and you feel as though your life is over. Anyway, the surgery did not help so they sent me to an allergist who said I wasn't allergic to anything and to use salt spray in my nose. I had done that before without much help.

I read about Colloidal Silver and decided to try it. I have used it for over 8 months and am delighted that it helps me cough up mucous and breathe better, so I don't get sick. I use it daily in my nostrils and sometimes it stings but it is all worth it. I have found it helpful for minor infections as well.

Thank you so much for this product.

JS, Newport Beach, CA

Sinusitis

The use of colloidal silver in a nose spray and with a dropper as directed has completely cleared up my chronic sinusitis which I have endured for years. Thanks Earthborn.

James M., West Yarmouth, MA

Sleep Apnea

My aunt in California uses this product and gave some to me and I love it and use it everyday. I have sleep apnea and use a mask each night to get a good nights sleep. When I wake up in the morning my nose and throat are always dry and burning and I put a few drops in each nostril and in my throat while I'm still in my bed. I get up a minute later and feel great. Before, the pain would bother me for hours every morning.

Michael B., Miami, FL

Stomach Problems (Food Poisoning & Montezuma's Revenge)

A couple of years ago I discovered the wonders of Colloidal Silver when I contracted food poisoning. I had eaten a sandwich with tainted mayonnaise on it and became very ill. After throwing up, having

chills, diarrhea and stomach cramps for 2 hours, I looked in my cabinet and found a bottle of Colloidal Silver. I thought this is supposed to kill bacteria, I will give it a try.

I took one sip and threw that up and then I took another sip, laid down and fell asleep. When I woke up an hour later, I felt like I had never been sick.

I use Colloidal Silver for sinus infections, sore throats, earaches. stomach distress and anything else that comes along and the symptoms are gone within minutes.

Thank you for introducing me to Colloidal Silver. I will never be without it.

Bev K - Aliso Viejo, CA

Through a friend, I learned about your Colloidal Silver product, and I decided to try it for myself. I have a very sensitive gut, and quite frequently have upsets, probably due to what I eat. Colloidal silver helped me a lot, and my BM's don't smell bad any more.

I gave it a real good test by going to Tijuana recently, something which I could never do before without getting violently sick, both vomiting and diarrhea. I never had any problem this time, since I took the colloidal silver with me, and used it the whole time I was there. Thank you so much!

This gave me the idea to give it to my dog who had bad breath, to see if it would work.

I am happy to report that since I have been giving her colloidal silver in her water, I can now kiss her on the snout without being repulsed by the smell.

I am going to experiment with many other uses as well, and I'll let you know what I find.

Thank you so much for your product – it has changed my life !

M.D.S., Costa Mesa, CA

Strep Throat

My discovery of colloidal silver began with strep throat in September 2003. It affects me terribly. When I was a teenager I would miss school for 2 1/2 weeks, all that time taking my antibiotics. I would receive a

shot even before the results were back from the lab because I knew it was strep throat. It weakened me so much that I could barely walk.

At the age of 19 I decided to get healthy. Stop eating junk food, no drinking soda, not antibiotics. All because I had read about how and when the antibiotics came to be. I began to take vitamins and supplements. I ate right and drank lots of water. I lasted 4 years without a strep throat infection, and a flu or cold would only last a day. I worked in a daycare and still never caught anything for more than a day. My body was stronger, my immune system was healthy.

Then came September of 2003. My fiancé had strep throat. He takes this illness very well, he can eat, work, jump around and workout. I look at him in awe. "Strep throat is my killer. My debilitator. I am weakened so much by that," I said. Well he was cured without antibiotics and went about his merry way. About three weeks later I felt the tell tale signs. Pain in my throat, a circular soar on my tonsils. Uhh, I got strep throat. So I decide to fight this on my own for the first time. No antibiotics, they will just make me weaker.

I take every natural medicine I can read about. Homemade gargle, hydrogen peroxide gargle, belladonna, you name it I tried it. Nothing. Now I was getting a fever. I was vomiting, which I have done only a few times in my entire life! I was about to give up. Then, by the guidance of the higher power that drives me, I found out about colloidal silver.

I sent my fiancé to buy a bottle at a health food store while I waited for the Earthborn colloidal silver to arrive. It helped some, but was a very different substance than the one I received from your company. I began to take sips of your colloidal silver and I could immediately feel relief. "I can swallow!" I felt a relief and subsiding of the bacteria. I took a look at my throat, a lot of the strep was gone. This in about 4 hours. I never thought I would say this but I was happy to have gotten strep throat, it lead me to this wonderful supplement which has helped me with many other ailments. When someone asks me, what should I take for ___? I say Earthborn Products Colloidal Silver!

I have used colloidal silver on myself and others for the following ailments:

- *sinus problems caused by cleaning chemicals
- *pain and swelling from the growth of my wisdom teeth
- *sore throat
- *eczema (closes up the cracks and subsides the itching)
- *psoriasis
- *hair regrowth (small patch on my head where hair would not grow)
- *eye infections
- *ear infections
- *cuticle repair
- *nail fungus
- *yeast infection

- *mildew
- *I place a full dropper in my facial lotion
- *pet wounds
- *put some into my tea
- *sprayed poultry with it and many more...

I can testify to the claims you have made on your website and I am so glad to have stumbled upon this. I have spread the word to others, I have made many recommendations. I hope your business flourishes and keep on with your great work. The synthetic chemicals we put into our bodies will always do us harm. We have to utilize substances that can complement our biology. There is a cure for everything born within the earth. I highly recommend Colloidal Silver.

Sincerely,

Sue C - North Bergen, NJ

Toenail Fungus & Warts

I am more than pleased to use Earthborn Products' Colloidal Silver. Treating toenail fungus has resulted in the removal and discontinuance of the fungus. Also, my USPS mail-man had a very sore throat (he told me one day). I gave him Colloidal Silver to swallow, and he followed that with a sip of water. Within a minute or two as we continued to talk, he told me the sore throat was totally gone.

Earthborn Products' Colloidal Silver is a remarkable and wonderful product to use. I will continue to purchase this product for the remainder of my life if it is available.

Genn F., Dallas, TX

Colloidal silver is simply the best antibiotic on this planet. I have used it for years and have corrected more maladies that any manmade drug ever has.

Some factual remedies I have experienced:

- * Toenail fungus, gone
- * Sinus infection, gone
- * Wart, gone

* Feline bone infection, gone
* Hot tub water, perfect * No cold or flu 3 yrs. *
And on and on...

This is all true. You can waste your money on limited effectiveness of toxic drugs, or use what mother nature gave you in the first place. There is a natural cure for everything on this planet. We just need to find them!!!

C.G., Raleigh, NC

Tooth Abscess

After doing a bit of online research, I purchased your Colloidal Silver for a tooth abscess. Although I am not a medical professional, I believed a very recently developed knot on my neck (about the size of a quarter) was caused by the spreading tooth infection.

Within 3 days of swishing, then swallowing a capful of Colloidal Silver 3-4 times per day, the knot disappeared and the tooth pain had subsided. I'm a believer.

Additionally, a thimble-full of Colloidal Silver is a great algacide for the pet's water bowl.

Regards,

W. S. - Shingle Springs, CA

I swear by colloidal silver, some of my friends/family think that I'm nuts but I have used it for so many different things and I've had results which even astonished me. I recently had an abscessed tooth which got so bad that my face looked like a balloon, but after a few days of using colloidal silver, swish and swallow, several times a day it all went away. I also use it at the first sign of sore throat, which always turned into a cold but I just got over the same cold my husband had for almost 3 weeks in about 3 days. I love this stuff!!

L.G. - New Berlin, WI

I hope I never have to live another day without my colloidal silver.

Due to my job and responsibilities, I come in contact with children from all walks of life. Most of them have a cold or flu, and I would always quickly let them share it with me.

Last February, 2003, I had pneumonia. I thought that I was going to die. Then, in May 2003, a friend introduced me to colloidal silver. And praise be to God! I haven't been sick since! Even when sick kids are coughing everywhere, I'M WELL!

One day in September 2003, I woke up with an abscessed tooth. So I held the colloidal silver in my mouth for 5-6 minutes every 2 hours and in 2 days it was back to normal. When I went into my dentist, he couldn't believe it, and he had to know all about it.

I even drop it into my eyes and nose at night. I use it as a disinfectant and use it as a face toner after I wash it.

I pray that God puts his loving hand on this product and protects it, so it will always be available to us who believe in it.

Thank you colloidal silver and Earthborn.

C D - Las Vegas, NV

Urinary Tract Infection

When I had the beginnings of UTI with sporadic pain in the lower stomach area, I put your colloidal silver on a tampon, inserted it, and the pain went away within 1/2 hour.

J.A., Needles, CA

I just wanted to write to you and let you know that colloidal silver is one product that this household will never be without. And it is also a product that I highly recommend to everyone!

I use it when I can feel a UTI coming on and within hours, it is gone. I used it during the terrible 2003 flu season and within hours of both of my daughters having a 103 temp, it was history and they were up and going once again.

I used it in a protocol to help cure my 21 year old daughter of her Hodgkin's lymphoma stage 3b. We preferred to go the alternative route instead of the deadly poison chemotherapy that big pharma offers. My daughter has just been pronounced cancer free.

I use it in my cat's water if I notice her coming down with something. Thank you for such a wonderful, safe product.

L. M., Coopersville, MI

I heard about colloidal silver from others claiming what they had used it for, and I thought I would try it. I first used it for a sore throat (which usually turns into a cold) and the next day it was gone!

I got my husband to give it a try and now we both have told our parents to try it. We don't go on vacation without a small bottle, JUST IN CASE. I use it when having dental work done. The injection site for the Novocain was always a problem for me, now I spray before I go and when I get back from the dentist, no more pain from the needle.

My daughter is constantly getting UTI's, now she uses it at the first sign and she hasn't had a flare up for more than a day. I am sure I have not found all the uses for this product, and I explain it to everyone I talk to. Problem is when I do, they ask for some to take home and try for themselves. My supply is going quickly. Don't let "the man" suppress the information, spread the news, tell your friends. They will thank you.

Polly D - Monroeville, NJ

Viral Infection

I finally decide to write this email to let you know how Earthborn Products has impact my life. After using your product for a period of about 90 days and three weeks I feel so great. I have been suffering for ten years with a viral illness until I found you and I can honestly say this is the best i felt in a long time thanks to your silver, and even though I was concern about the side effects such as argyria.

I can happily report that I have not turn blue!! instead I am feeling like I felt as a child "healthy". I hope my testimony can help others who are feeling at the end of the rope like I once did: there is still hope!

Joan C - Watchung, NJ

COLLOIDAL SILVER FOR PETS

Bad Breath

Through a friend, I learned about your Colloidal Silver product, and I decided to try it for myself. I have a very sensitive gut, and quite frequently have upsets, probably due to what I eat. Colloidal silver helped me a lot, and my BM's don't smell bad any more.

I gave it a real good test by going to Tijuana recently, something which I could never do before without getting violently sick, both vomiting and diarrhea. I never had any problem this time, since I took the colloidal silver with me, and used it the whole time I was there. Thank you so much!

This gave me the idea to give it to my dog who had bad breath, to see if it would work.

I am happy to report that since I have been giving her colloidal silver in her water, I can now kiss her on the snout without being repulsed by the smell.

I am going to experiment with many other uses as well, and I'll let you know what I find.

Thank you so much for your product – it has changed my life !

M.D.S., Costa Mesa, CA

Canine Papilloma

I have used colloidal silver for several years now for myself and been very satisfied. However, I recently had my West Highland Terrier to the vet for wart like sores (white and gray in color) on his lips and gums.

They were diagnosed as Canine Papilloma. I was told they were very highly contagious and he had likely caught them at his daycare that he attends once a week for fun. The vet also said it could take one month to 5 or so months for them to go away and there is really no treatment for them.

They began to get bigger and had spread to the other side of his mouth with many tiny seed warts. They were becoming more numerous. On a Wednesday evening I used a cotton ball to put some colloidal silver on the sores. I continued this Thursday morning and evening. By Friday morning the large ones

had begun to die and the sizes had diminished greatly. The small seedling on the other side had nearly disappeared. It is now Saturday and the seedlings are totally gone and there is one of the large ones remaining on the other side. It is quite small and pink. I expect it to be totally gone in another day or two. This is the most dramatic result I have had with this product.

Sandra N., Eugene, OR

Ear Infections

When my dog had mange, it was because she had a suppressed immune system due to her initial coming into estrus. She also developed an ear infection that we really battled with. She hated us messing in her ear or putting any meds in it, as they all stung like crazy, even the mild ones.

Finally, I soaked a gauze pad in colloidal silver and just let it drizzle in her affected ear, then gently wiped it out as best I could. After a couple days of this, she stopped scratching at her ear and shaking her head, and then I was able to go in a little deeper with the damp gauze. Worked like a charm.

Kelly C., Lorton, VA

Eye Infections

My cat had an infected inner eyelid for over 3 years now; the vet said it was a herpes infection, which is why the antibiotic drops were ineffective. Just after using the colloidal silver for a couple of weeks the eye is almost completely healed now.

Thank you and please pass the word to the veterinarians that colloidal silver can heal viral infections of the eyes. As a nurse I remember when we used to put silver nitrate drops in eyes of newborn infants and figured it was worth a try with the colloidal variety.

Too bad I wasted money at the vet who told me SORRY THERE IS NOTHING YOU CAN DO FOR IT....boy was she wrong!

G Coats, Chino, CA

Feline Herpes & Sinus Infections

I have two felines, Ben and Jerry, who were diagnosed with feline herpes. For those who don't know, feline herpes is an upper respiratory illness that manifests itself in nasal discharges and ulcerated corneas. It's a lifelong illness, which flares up when the animal is stressed. For my guys, this has meant frequent bouts with sinus infections.

For years, at least twice a year, each cat would get a sinus infection. Sneezing would go on endlessly for hours, their eyes would tear constantly and I would run around with a tissue trying to save my furniture and walls from kitty snots (a losing proposition...). This meant at least 4 trips to the vet each year, trips in addition to those made for annual exams and shots and whatever other health issues we'd encounter.

A friend introduced me to colloidal silver as a natural antibiotic. At the first snuffle, I start a 3-times-a-day regimen of colloidal silver for whichever animal is getting the usual sinus infection. I give them colloidal silver in the nostril that is affected as well as orally, under the tongue. I haven't had to get antibiotics from the vet for their infections in several years. It saves me money and saves the cats the trauma of a car ride and poking and prodding by strangers and, finally, the indignity of having a bitter pill shoved down their little throats.

Char, Palmyra, VA

Fungus

Thank you so much for offering such a great product! I bought a new horse in Feb. of this year and he had fungus all over his body. I put your colloidal silver in a spray bottle and sprayed him with it once a day. Within one week the fungus was gone! We have found many uses for it in our barn!

Cynthia L., Coconut Creek, FL

Infections

I don't know what I am more amazed over, Earthborn Products super speeding shipping or Colloidal Silver, itself! I ordered the product 3 days ago and it just arrived!

I have been using Colloidal Silver for years now and cannot say enough about this product! I have used it for tooth aches, allergies and sinus infections, eye infections, acne (my face looks great now!) cuts, ear aches and the list goes on!

When I had my one dog neutered, he developed an infection in that area. The Doctor prescribed antibiotics and some cream. Use that for two weeks and it did nothing. Then, it dawned on me to try the Colloidal Silver. The infection cleared up just using the Colloidal Silver for 3 days!! It was totally gone! My other dog used to suffer from constant ear infections. I now give him a couple of drops of Colloidal silver in each ear every day. He has been infection free for almost a year and a half now!

I recommended it to a friend of mine who has MS. She was confined to a wheel chair. She has been taking it for a few months now and is able to not totally walk on her own but, get out of the wheelchair and use a walker. She cannot stop thanking me for letting her know about Colloidal Silver!!!

I swear, it is Nature's cure ALL!!!

Sheryl J - New Jersey

Hi! I love this stuff. My most recent use was to dab it twice daily on the slow-to-heal spot on my dog's foot where he'd had surgery. I also put it in his H2O. Finally, it started healing notably. Prior to that I was having huge problems with it.

Kelly C., Lorton, VA

Mange

When my dog had mange, it was because she had a suppressed immune system due to her initial coming into estrus.

I was really struggling with it using traditional veterinary meds, and finally put the colloidal silver in her water and made a poultice and pressed it daily on the bad spot on her muzzle where they'd done the scrape and where the hair fell out. The next morning it had finally dried up, and hair started growing back soon after that.

I noted, though I don't think this is a usual use, that it helped my dog's case of demodectic mange.

Kelly C., Lorton, VA

Parvo

Colloidal silver can mean the difference between life and death. My three-month-old puppy came down with parvo. I was devastated. My vet suggested that I leave her at the office for I.V.s but I assumed that if she were going to die I'd rather her die at home where I could hold her.

Then on the way home I thought of colloidal silver. I gave her approximately 1 teaspoon three times per day along with plenty of pedialyte. I fed her baby food from a spoon when I could get her to take it. To make a long story short, my dog will be celebrating her 6th birthday next week! She is just fine thanks to the colloidal silver. I use it for everything now. It's wonderful!

Thanks,

Debbie-Tucson, AZ

Ringworm

I have been using colloidal silver for 2 weeks now and the difference is amazing - not only for me but for my pets as well. Came across it by searching for a natural cure for ringworm which my new kittens had - they gave it to me....and then my 2 indoor dogs as well. We are all doing much better!!

AMR - Port Orange, Fl.

PS. My Savannah Monitor Lizard seems to like it in his bathing dish too!

Staph Infections

My 2-year-old Lab has had over 9 Staph infections. I was hesitant to put him on another antibiotic, so I gave him Colloidal Silver orally and rubbed it on his belly. Within hours the sores were healing and now after almost a week, he is fine. I'll never be without it again!!

Thanks!!

Urinary Tract Infection

I have been using colloidal silver for a good two years now . I add it to my female dog's water because she suffers from occasional urinary tract infections, usually when her allergies really kick up. Proves to work on that. I also spritz it on my face after I wash it in the morning, then I put on moisturizer and find I have no breakouts. I have also gargled with it for sore throats and they are gone in a day. Good stuff. Beats going to the doctor and the vet all the time.

Yeast Fungal Infections

I've used your product before to cure ringworm - now my dog has 'doggy athlete's foot' ie: yeast fungal infection. My vet said to try lotromin, monistat cream, anything for yeast infections. well, it's not going away.

Then I remembered your product and how well it worked for the ringworm and my sinus issues, and lip sores etc, so I figured if I put this in a spray bottle and spray his feet, when he licks it off it won't harm him and may help kill the infection from the inside out. I will also be putting it in my pet's drinking water again.

I have 4 cats and 3 dogs. They always would go for the dish that had the Colloidal Silver in it than the distilled delivered water! So, I will try this and see if it helps with my dogs 'Athlete's foot'. I never even knew dogs could get that!. He also had an infection in his ear - same thing yeast. That cleared up, but if it comes back I will use the colloidal silver, or maybe even as a preventative?

Thank you for such a fantastic product. I noticed how the FDA won't allow you to make claims but are now allowing Band-aid product to introduce their 'new cure-all silver in their band-aids which helps prevent infection and speed healing! What hypocrites (my opinion-not the opinion of this website or its owners).

Thanks again for bringing back and informing the public of such a wonderful product.

Many Blessings,

Rev. Angela R - Port Orange, FL

COLLOIDAL SILVER FOR PLANTS

Root Fungus

I used colloidal silver to revive my African violets that had developed fungus in their roots. I just soaked them with colloidal silver and they made a miraculous recovery and are thriving now.

Your product is fantastic. I would recommend it to everyone!
